

💡 Accelerate Your Customer Onboarding

This ai4process accelerator streamlines commercial insurance onboarding with AI-driven email-to-profile creation, KYC validation, sanctions and media checks, and risk scoring—cutting onboarding time, boosting compliance accuracy, and delivering instant risk insights for faster, more secure client approvals.

💡 Key Challenges We Solve

- Onboarding delays
- Manual KYC & data entry
- High compliance failure risk
- Limited visibility on risk factors
- Rising regulatory scrutiny

★ What You Get – Out of the Box

- **Email-to-profile automation:** Extracts business details from enquiries in seconds.
- **KYC integration with Companies House:** Real-time validation against registration records.
- **Sanctions & media screening:** AI-driven checks across LexisNexis and 1,000+ news sources.
- **Risk-based routing:** risk scoring to auto-approve low-risk cases, escalate high-risk ones.
- **Live compliance dashboards:** Interactive charts for auditors and risk managers, updated instantly.

📊 Benefits at a Glance

- **Reduced onboarding time** – accelerate client intake from weeks to just days.
- **Higher compliance accuracy** – meet FCA and regulatory standards with confidence.
- **Fewer manual reviews** – free up underwriting and compliance teams for high-value work.
- **Real-time risk insights** – gain instant visibility into customer risk profiles and exposures.
- **Scalable across business lines** – seamlessly extend the solution to multiple insurance products.

⌚ Target Use Cases

- **Insurance brokers** processing hundreds of SME applications monthly.
- **Commercial insurers** handling complex policies with strict compliance needs.
- **Banks** onboarding new corporate clients with high KYC burden.
- **Fintech firms** expanding services to regulated business clients.
- **Global reinsurers** monitoring cross-border clients with sanctions exposure.
